

# Collaborative Program in Developmental Biology Mini Symposium 2012

January 13, 2012

University College, Room 179, 15 Kings College Circle

## Program

1:00 pm Registration

### Session 1 Chair: Antonia Borovina

1:30 pm **Amanda Moore (Anderson lab)** *Transcriptional priming of intrathymic precursors for thymic dendritic cell development*

1:55 pm **Jeffrey Burrows (Scott lab)** *A conserved requirement of MED14 for the maintenance of stem cell populations*

2:20 pm **Katie Wright (Egan lab)** *Genetic analysis of Stat3 in mouse models of breast cancer*

2:45 pm Coffee Break

### Session 2 Chair: Steffen Biechele

3:15 pm **Emily Chen (Lipshitz/Smibert labs)** *Role of Smaug in posttranscriptional regulation*

3:40 pm **Erich Damm (Winklbauer lab)** *The regulation of radial intercalation during gastrulation in Xenopus*

4:05 pm **Simone Superina (Ciruna lab)** *The role for proteoglycans in regulating embryonic patterning and morphogenesis*

4:30 pm **Prizes** for best seminar presentations

5:00 pm **Social**
